

ibaManagementStudio v1.4.0

New features

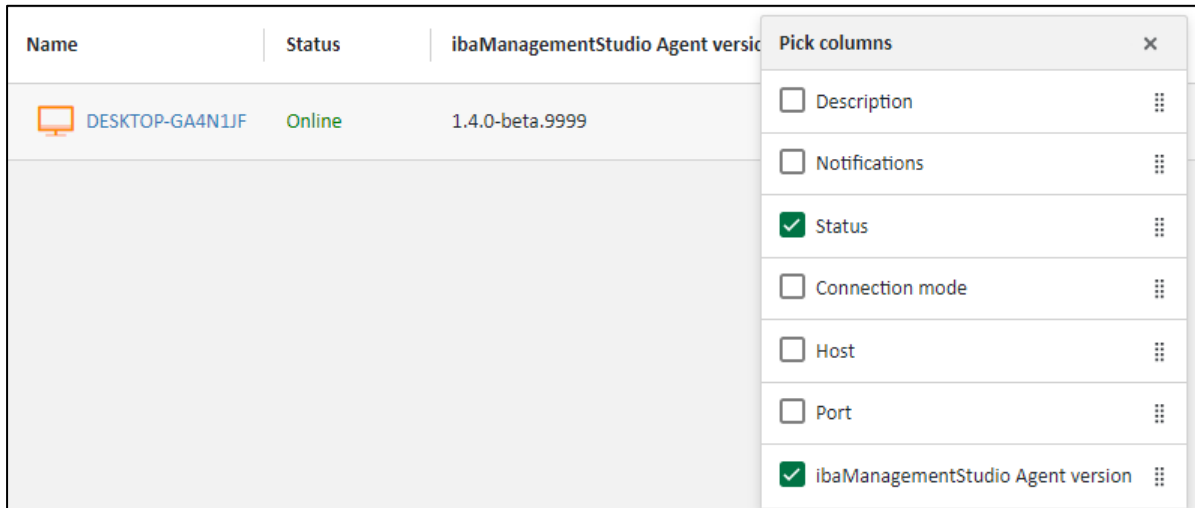

11/17/2023
iba Fürth

Table of Contents

1.	Grid column customization	2
2.	Filling level ibaHD-Server	2

1. Grid column customization

- **Column selection:** Users can select/deselect the visible columns for a certain grid, as well as modify the column widths in several grids (e.g., system overview, software overview). The changes are persisted in the browser data. The column picker can be found in the top-right corner of the grids.

- **Description column in the system overview grid:** A column 'Description' was added to the system overview grid. By default, this column is not shown. To show the column, select it in the column picker.

2. Filling level ibaHD-Server

- **Fill-level visualization for ibaHD-Server stores:** The values for the columns 'Intermediate storage', 'Size limit' and 'Time limit' for ibaHD-Server stores are visualized with fill bars.

Name	Type	Intermediate storage	Size limit	Time limit
HD length store 1		<div><div></div></div>	0.1 / 10 GB	0 / 20 days
HD event store 1		0.1 / 5 GB	0 / 10 GB	0 / 15 days
HD time store 1		0.1 / 2 GB	0 / 5 GB	0 / 10 days
